## **A Holistic Digital Health Platform for Enhanced Patient Engagement.**

Built by doctors for doctors, this platform is dedicated to healthcare providers. Unlike other digital health solutions that burden doctors with additional tasks, this is designed to streamline processes and save valuable time.

Harness the power of an AI-driven, comprehensive platform that simplifies monitoring, engaging, educating, and treating patients.

### Benefits for Healthcare Providers:

- Workflow Optimization: Achieve better outcomes with reduced effort and time.
- Cost Efficiency: Lower operational costs while boosting revenue.
- No upfront costs.
- Payment aligned with provider success.
- Impressive revenue potential: \$1.2 Million gross per 1,000 patients.
- Comprehensive Remote Patient Monitoring: Facilitate virtual treatments, patient education, and peer collaboration seamlessly.
- Enhanced Patient Engagement: Proactive interventions lead to improved health outcomes, longer life expectancy, and superior provider ratings.
- Risk Mitigation: Prevent common errors that can lead to misdiagnosis, prescription mishaps, and subsequent legal challenges.
- Simplified Medical Billing: Leave the complex billing processes to us.

### Management of Chronic Pain:

- Advanced remote patient monitoring, encompassing both physiological and therapeutic aspects.
- Collaborative care management and Behavioral Health Integration (BHI).
- Tailored patient engagement strategies

### Technical Features:

- AI-Enhanced Personalized Patient Communications.
- An All-in-One platform that integrates CCM, RPM, RTM, Telehealth, and Patient Education seamlessly.
- Innovative RPM and RTM for a comprehensive health overview.
- Integrated Collaborative Care Management (CoCM) model.
- Mobile-first design, perfect for rural and urban healthcare delivery.
- Universal compatibility with digital devices and wearables.

### Ideal for a Variety of Healthcare Settings:

- Physician and dental offices of any size.
- Nursing agencies, hospitals, and regional health systems.
- Physical therapy, wellness centers, and concierge medicine.
- Pharmaceutical entities, from large chains to independent stores.
- Sports facilities, fitness centers, and senior living communities.

### Proven Outcomes:

- Notable reduction in patient readmissions.
- Enhanced access to medical care.
- Decreased healthcare costs for chronic conditions.
- Efficient medical coding and billing processes.
- Optimal revenue generation.
- Better patient outcomes.

### Easy Onboarding:

- Zero upfront fees.
- Comprehensive support during patient enrollment.
- Extensive staff training to maximize system benefits.
- Access to Medical Assistants for eligibility assessments in CCM, RPM, RTM, and virtual care.

### Financial Transparency and Achievements:

- No upfront costs.
- Recognitions: Best RPM by Avia Health (2023), top honors in Telehealth by Best in Klas (2022), and a prestigious statewide contract in Georgia for Telehealth and RPM services.

### Partnership Opportunities:

- Investor relations and white-label solutions are available.

This platform is not just a tool but a transformation in healthcare delivery, designed to enhance patient care and optimize provider performance. This is revolutionizing healthcare management.
